for what it's worth, try avoiding migraine food triggers and see if your symptoms lessen at all

according to the general law of health and safety the employer has responsibility for providing a good working environment.

it really goes great with my work and what does taking meds have to ask her permission, i'm looking for in a small sinking so it's incremental to find it.

support is worth more than a thousand conversations anyone who is out there who is reading this i encourage you to go out and change your life
